- Modern Curved Design*
- Mechanical Thermostat*
- Selector Switch: Fan/Heat/Off*

# American Made Durability

We believe 60 Years of Experience Matters.

King products have been made in Seattle, WA since 1958.

## Powder Coated For Long Lasting Color

Consisting of a dry powder that is electrostatically applied and then cured under heat to allow it to flow and form a "skin" on the metal. Powder coating is thermally bonded to the metal substrate which provides superior adhesion and prevents chipping.

## Freedom of Color

You know what it feels like when you walk into a well-designed building. You can sense how everything feels cohesive and put together. It feels just right.

Create the look and feel that is right. Combine colors, materials, lighting, and now even designer heating fixtures to achieve the ambiance that fits both your ideas and your building. Choose from one of our 4 dynamic designer colors, inspired by the architecture around us.

White Dove

Almondine

Satin Nickel

Oiled Bronze

# The Quintessential Finish, Elevated. Always Popular and Easy to Match Any Décor.

Impeccable style defines this classic, softly shaded white. Light and luminous. Inspired by the classic lines of traditional American design, White Dove adds a statement of subtle elegance to a building's décor. Bring a designer accent to any room, without stealing the spotlight.

## WHITE DOVE

### Classic Approach

An Ideal choice if you have all white walls & decor  
or want to match your trim, baseboard and crown molding.

# The Brushed Silver Hues Flatter and Compliment Any Décor Style.

Satin Nickel saw its rise to popularity alongside the Victorian and Mid-Century Modern design movements. It prefers to live among bold, geometric shapes and patterns, bright solid colors and edgy, unconventional furniture.

## *SATIN NICKEL*

### A Touch of Modern

An Ideal choice for modern spaces outfitted with satin nickel hardware.

# Popular in Spaces with Country Charm as Well as For Traditional Decor.

From farmhouse style with creamy walls and cabinets to buildings with lighter wood trim, and natural materials in neutral tones like cream or beige, Almondine is your best bet. Offering a cool country look that blends in with your decor better than white.

## ALMONDINE

### Traditional

Ideal for a traditional look that incorporates creamy tones and off-white walls.

## Perfect For Rustic, Down-to-Earth Living Spaces.

Oiled Bronze is a traditionally inspired finish that finds its style rooted in Old World character, but also heavily in the Arts & Crafts movement—Oiled Bronze works exceptionally well with ornate, handmade, craftsman-style furnishings.

# OILED BRONZE

## Old World Charm

An ideal choice for luxury buildings outfitted with oiled bronze hardware.
